Front End Developer/Web Developer

Summary

Seeking for a full time Web Developer.
I have good experience in developing application using Javascript, HTML and CSS. For developing in efficient way, I used to use AngularJS and Angular2 as the client side application framework. To interact with different platform of applications, I know how to consume the Rest API with MongoDB and Oracle database. I have experience in controlling code version using GIT and in testing code using Jasmine and Karma. I am a quick learner and I enjoy working under pressure. I have excellent communication and interpersonal skills and ability to work independently and in a team with minimal supervision to meet the deadline.

Experience

Front End Web Developer
Marlabs   Apr, 2017 to Sep, 2017
• Responsible to design and developed web pages using HTML5, CSS3, JavaScript, JQuery, Bootstrap and Angular2.
• Developed dynamic responsive web application by integrating Angular2 with Bootstrap, which is further integrated with web services.
• Built Angular2 components, services and router to consume rest services using component based architecture provided by Angular2.
• Worked with JSON for data exchange between client and server.
• Worked with Git to maintain different versions of source code and push them to the remove repository.
• Worked with MongoDB for data inserting, fetching, deleting and updating.
• Used Jasmine and Karma as testing tools for debugging and software quality assurance.
• Worked with Agile methodology with daily standup meeting and bi-weekly sprint meeting.

Web Developer
Dealfar   Sep, 2016 to Apr, 2017
• Designed the front-end applications, user interactive (UI) web pages using web technologies like HTML5/4, AngularJs, JavaScript.
• Enhanced user experience by designing new web features and single page applications AngularJs.
• Created API as subroutine for building application, using Router module in NodeJs and Router module that provided by AngularJs.
• Committed code change into repository by using version control tool GIT and worked with MongoDb and Oracle database.
• Writing unit tests in AngularJs using Karma as test runners and Jasmine as test builder.
• Participated in an Agile Scrum development environment.
